

Product Features

Printing Through Wireless Connection (Wireless Print)

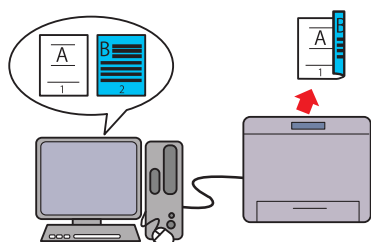

The Wireless LAN feature on your printer allows you to install the printer at any location, and enables printing without a wired connection to your computer.

Printing multiple pages on a single sheet of paper (Multiple-Up)

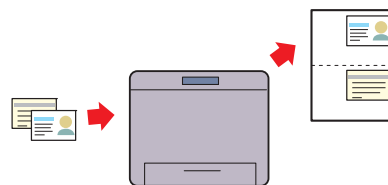

Multiple-Up Print allows you to print multiple pages on a single sheet of paper. This feature allows you to reduce the paper consumption.

2-Sided Printing (Duplex Print)

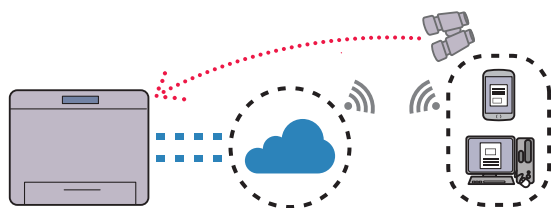

Duplex Print is to print two or more pages on the front and back side of a single sheet of paper. This feature allows you to reduce the paper consumption.

ID Card Copy

ID Card Copy feature allows you to copy both sides of an ID card on one side of a single sheet of paper in its original size.

Dell Printer Hub

Dell Printer Hub is the program that monitors and informs you of the printer's status and allows you to customize the printer settings. In addition to the same features as Dell Document Hub, Dell Printer Hub notifies you of the firmware/software updates. When you install the drivers for this printer, this program is also automatically installed. For more information, open the program and click ? on the top right of the main window to see the FAQs.
